# IDENTITY CARD OF COÍN

# Saint John's Church

# Typical narrow arabic streets

# Old Saint Mary Church

# Oranges, typical fruit

# Did you know that?

## Coin train

- In a time when connections between inland and the Costa del Sol are more important than ever, few people know that almost 100 years ago, a train ran between Coín and Málaga. In 1913, after eight years of work, was inaugurated the railway Málaga-Coín. Most of the four million pesetas which it cost was invested by a Belgian company. Before then, the residents who needed to reach Málaga city had either to walk or travel by donkey, horse or carriage.

# Looking forward to meeting you in Coín
